Els dispositius VC-xxxxx son les càmeres PolyCom que tenim instal·lades a les sales de presentacions i aules. S'han de mantenir per tal de poder actualitzar els firmwares.

Els dispositius canal-camins-socket son els endolls intel·ligents despleats per controlar l'alimentació de les pantalles del Canal Camins.

Els dispositius PIXXX Son les pantalles interactives, que es connecten a la xarxa IoT per poder rebre senyal de portàtils connectats inalàmbriament.
